

The U.S. - Russia provisional maritime boundary depicted here is pending the entry into force of applicable boundary delimitation agreements and, beyond 200 nautical miles, pending the establishment of United States continental shelf jurisdiction, if any.

Areas and dimensions of the irregular blocks along the zone boundary are as indicated.

The areas of the fractional blocks abutting the U.S. - Russia provisional maritime boundary line have been determined and are as depicted on the Supplemental Official OCS Block Diagrams (SOBDs). Consult the SOBDs for official descriptions and approval dates.

Typical method of subdivision of the regular blocks, each subdivision being an aliquot part of the total, based on midpoint subdivision throughout.

Copies of these diagrams and other information may be obtained at the appropriate MMS OCS Region or from <http://www.mms.gov/ld/maps.htm>
